TOOLS AND SUPPLIES

Catalog H

Supply Department

SUPPLIES

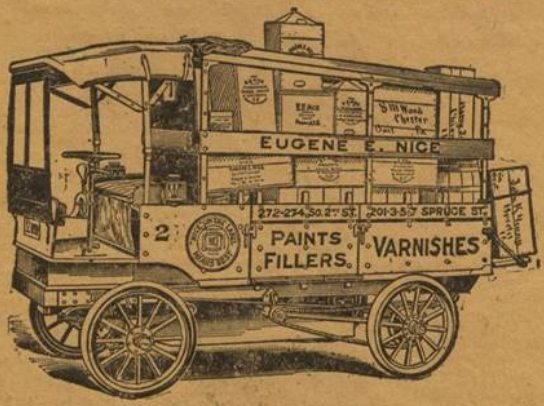
THOUGH not our main business, this department has grown by leaps and bounds until it now represents a very large business in itself.

The confidence of the trade has been won by Goods, Methods and Prices that are right, and to-day we show one of the finest and most complete stocks to be found anywhere.

Prices in this Catalog are

SUBJECT TO DISCOUNTS

which we will be glad to quote upon request.



We are noted for prompt deliveries and shipments. Above is latest addition to our service.

Remember, we are Manufacturers of

"NICE"
Fillers, Varnishes and Paints

and that it will be your loss quite as much as our own if we fail to interest you in them and you fail to get in touch with them.

BRUSHES.

The requirements of the painter and finisher have been our careful study for almost 35 years, and we believe that the values offered here are not surpassed by any other lines on the market.

Here you will find the very finest Varnish and Paint Brushes for automobile, coach and general interior finishing, and from these down through successive grades to the good but low-priced goods for the general family trade, each brush representing the maximum of value in its respective class.

We never get so satisfied with our offerings, however, but that we seek to still further strengthen and improve them, and in this catalog you will find many new lines now listed for the first time.

Note particularly our new

RUBBER SET AND BOUND GOODS

Our Cement Set Brushes will no doubt still be preferred by many careful, discriminating users, but for those who want the strongest setting possible, probably for special uses where a cement setting will give way in time, we have added

Nos. 25, 36, 55, 73, 75, 117, 133, 169, and 96 all set and bound in vulcanized rubber, *not* merely set in rubber in a tin or metal ferrule.

Any "Rubber Set and Bound" brush can, of course, be used for shellac, but we still continue our old style No. 92 Shellac Brush because it has proven so satisfactory. Remember we *do not recommend or guarantee any brush for use in shellac except No. 92, or the "Rubber Set and Bound" lines.*

Our Guarantee:—With right usage we warrant every "Nice" brush to give the satisfaction that it ought, its quality considered, and if it does not we will replace cheerfully.

CAUTION: The best brush will sometimes contain a few loose bristles. Be sure to get these out before putting the brush in use. A little thoughtfulness in this respect will oftentimes save trouble.

Brushes should be kept in a cool place as near the floor as possible. Exposure to heat will sometimes make the wood shrink and cause the best brushes to shed bristles.

Discounts quoted upon application.

Wire Brushes.

The uses of these brushes are many, such as removing paint and varnish, cleaning woodwork, stone, architectural iron work, foundry castings, etc. Some of them are very useful about the home for cleaning floors, stoves, ranges, brick and stone work, etc. Some of them (the fine wire ones) are much superior to sand paper, especially on uneven surfaces such as mouldings, etc. For cleaning dirt out of cracks the finer ones are just the thing.

No. 211. Coarse Wire Hand Scratch Brushes.

For Cleaning Scale off of Iron.

Ladders, Jacks, Tools, Rigging, etc.

This department of our supply business has grown to very large proportions.

Our goods along this line are deservedly popular because they embody only the finest material, the best workmanship and the safest finished product it is possible to secure. Yet prices are reasonable and are as low or lower than many ask for inferior goods.

For Sundry Supplies see Alphabetical List, pages 64 to 77.

For Oils and Liquids see Alphabetical List, pages 60 to 63.

201, 3, 5, 7 Spruce St.

Tools, Rigging, etc. *Continued.*

Extension Ladders.

Best clear spruce sides. Oak rungs. Equipped with patent, automatic, malleable iron hooks, which will lock at any angle. Also provided with a tripper which forces the hooks back, allowing them to pass the rounds when descending.

Two Section Extension Ladders.

24 ft.	(2 12-ft. sections)	$7 60
28 "	(2 14- " ")	8 90
32 "	(2 16- " ")	10 15
36 "	(2 18- " ")	11 40
40 "	(2 20- " ")	15 20

Three Section Extension Ladders.

The first and second sections are the same as the two section ladders. The third section is secured with lock and hook to the second section. The third section can be put in place after the ladder has been put on end and then it travels with the second section.

Price for third section only:

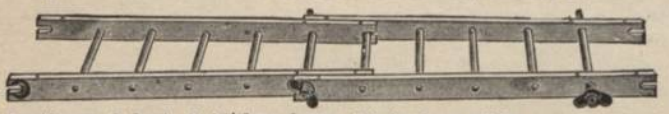
12, 14, 16 or 18 ft..... 32c ft.
20 ft. ..... 38c "

To ascertain the list price of a Three Section Ladder take the price of the Two Section Ladder and add to it the price of the third section wanted.

The following are three good combinations:

32-ft.	Ladder	with	12-ft.	3d	sec..	$13 95
36 "	"	"	14- "	"	" ..	15 85
40 "	"	"	16- "	"	" ..	21 30

Improved Lock Joint Sectional Ladders.

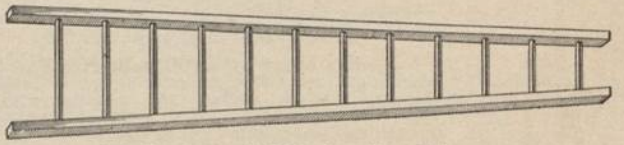


Sections, 6 feet, 5 inches long, 24 inches wide.

Regular Sections (as per cut)	each,	$1 95
Double Sliding Top Sections (work like an extension ladder)	"	4 60
Bottom Sections with spread butt and extension leg	"	2 65

All prices subject to change without notice.
Discounts quoted upon application.

Tools, Rigging, etc.—*Continued.*



Painters' Plain Ladders.
